Journal of Intelligent and Robotic Systems **4** (1991)

Contents of Volume 4

Volume 4 No. 1 March 1991

H. M. STELLAKIS and K. P. VALAVANIS / Fuzzy Logic-Based Formulation of the Organizer of Intelligent Robotic Systems 1

DAVID BEN-ARIEH and ODED MAIMON / Multiple Robot Programming Using a Concurrent Logic Language 25

D. M. DAWSON, Z. QU, J. F. DORSEY, and F. L. LEWIS / On the Learning Control of a Robot Manipulator 43

VIVEK V. BADAMI, PAUL NIELSEN, and JAMES B. COMLY / An Intelligent Controller for Process Automation 55

MADAN G. SINGH and KHALIL HINDI / A Multilevel Multilayer Framework for Manufacturing Control 75

Book Review:
Y. Kodratoff: *Introduction to Machine Learning* (A. FAMILI) 95

Calendar of Events 97

Volume 4 No. 2 June 1991

JULIA E. HODGES, JOSE L. CORDOVA, WILLIAM H. GRAVES, and CHARLES R. TALOR / An Expert System for the Recommendation of Visual Aids 99

GRANTHAM K. H. PANG / A Framework for Intelligent Control 109

TANNEGUY REDARCE, YVES LUCAS, MAURICE BETEMPS, and ALAIN JUTARD / CAD Off-Line Programming for Industrial Machine Vision 129

K. P. VALAVANIS, C. A. JACOBSON, and B. H. GOLD / Integration Control and Failure Detection with Application to the Robot Payload Variation Problem 145

ODED MAIMON, ELI PROFETA, and SIGMOND SINGER / Energy Analysis of Robot Task Motions 175

Calendar of Events 199

Volume 4 No. 3 September 1991

G. WÖHLKE and TH. BRAUN / An Action-Based Process Model for Dextrous Multifinger Hands 201

GERHARD WERLING / Planning of Sensing Tasks in an Assembly Environment 221

LJUBOMIR T. GRUJIĆ and ZORAN R. NOVAKOVIĆ / Robot Control: Tracking with the Required Settling Time 255

KEIGO WATANABE, TOSHIO FUKUDA, and SPYROS G. TZAFESTAS / An Iterative Learning Control Scheme Using the Weighted Least-Squares Method 267

B. J. PETTERSON and R. D. ROBINETT / Model-Based Damping of Coupled Horizontal and Vertical Oscillations in a Flexible Rod 285

Calendar of Events 301

Volume 4 No. 4 December 1991

Publisher's Note iii

YUVAL LIROV and ON-CHING YUE / Expert Maintenance Systems in Telecommunication Networks 303

PHILIPPE C. DUCHASTEL / Tutorial Design for an Advisor System 321

NIKOLAOS G. BOURBAKIS / Real-Time Path Planning of Autonomous Robots in a Two-Dimensional Unknown Dynamic Navigation Environment 333

XIAOPING YUN / Modeling and Control of Two Constrained Manipulators 363

STEFAN SURKA and KIMON P. VALAVANIS / A Cellular Automata Model for Edge Relaxation 379

P. ANDRE, M. C. HADDAD, and C. MORLEC / Application of Uniform Cubic B-spline Curves to Machine-Tool Control 393

Calendar of Events 403

Information for Authors 407

Name Index to Volume 4 413

Key Word Index to Volume 4 415
